I almost never forward emails en masse, but I can't think of any one of my acquaintances who is in favor of partial-birth abortion, so I chose to send it to everyone in my email list. I am grateful to the friend who forwarded me the information on the "Freedom of Choice Act". No matter whom you voted for in the presidential election, this is of grave concern for the most vulnerable of our society. The above link contains a video of President-Elect Obama's stance on FOCA, and a petition to sign.

If you are unfamiliar with the grisly procedure known as "partial-birth," the description is below. We consider our society to be developed, cultured, refined, etc., but I can't help but think that we will be looked upon as extremely barbaric by our descendants. A society that describes itself with these lofty terms should also be known for protecting the innocent, but we are sentencing babies to "cruel and unusual" punishment, without anesthetic, without trial, for the "crime" of having been conceived in an "unwanted" situation. "Partial-birth" is the most inhumane, cruel, and barbaric of all the abortion procedures. I can't imagine the person who first came up with the idea. If we as a society accept this, what else will we tolerate?

If we had not aborted over 40 million babies for the last thirty years, our workforce would be large enough to support the now desperate Medicare and Social Security programs.* We've chopped off our own legs. A majority of the babies killed have been black, which amounts to auto-genocide. One can only speculate, but would the race divisions in our nation be more healed by now if we had a larger black population? (Margaret Sanger's (the darling of Planned Parenthood and the "Choice" movement*) motivation to teach minority women how to prevent and eliminate pregnancy was due to her view of them as an inferior species.*)

I look at my little six-month old baby and wonder how we have gotten this far. Our generation inherited Roe v. Wade, and the carnage has been more than the equivalent of losing the entire population of America's 60 largest cities.* What can I do? Sign petitions, contact our legislators, pray. What else can we do? If you have more information to share, email me back.

Partial birth abortion is used when the child has grown too large for other methods of abortion-- suctioning/dismembering or chemical burning.*
(<http://www.abort73.com/HTML/I-A-3-techniques.html>) This grisly procedure is reserved for babies who are near- or full-term, meaning they could live outside the womb.
DESCRIPTION: Partial Birth Abortion procedures:
A. Guided by ultrasound, the abortionist grabs the baby's leg with forceps. (Remember this is a live baby)
B. The baby's leg is pulled out into the birth canal.
C. The abortionist delivers the baby's entire body, except for the head.
D. The abortionist jams scissors into the baby's skull. The scissors are then opened to enlarge the hole.

E. The scissors are removed and a suction catheter is inserted. The child's brains are sucked out, causing the skull to collapse. The dead baby is then removed.
